

ZigBee Smart Homes Day

October 17th, 2014

Venice, Italy

Smart Homes have the potential to deliver huge benefits to consumers by improving comfort, security and convenience while enabling them to live greener lives. Delivering these benefits is an opportunity for companies to take place in the rapidly growing Internet of Things market. Join telecom operators, utilities and technology providers as they discuss how to deliver innovative products and services for the smart home using ZigBee, the only global, standards based wireless solution that can affordably and conveniently connect the wide variety of devices in the smart home.

How to get there

In the heart of Venice, a few steps from the Rialto Bridge there is a Campo (a small square): Campo San Salvador. Just beside the Church of San Salvador, inside the Convent lies the Future Centre.

From the international airport Venice Marco Polo you can easily get to Venice using the direct public transportation service "Alilaguna" www.alilaguna.it from the airport directly to the Future Centre at the Rialto mooring in about 1 hour (tickets also on board,) or using the water taxi service in about 30 minutes (Consorzio Motoscafi Venezia www.motoscafivenezia.it).

From the airport you can get to Piazzale Roma by bus (no. 5 ACTV www.actv.it) in about 30 minutes, then 15 more minutes by boat, line 2 or 1, to Rialto.

From the railway station Venice Santa Lucia or from Piazzale Roma (Venice car terminal), with public boat service (vaporetto) line 2 or line 1 ACTV www.actv.it, or with water taxi (Consorzio Motoscafi Venezia www.motoscafivenezia.it) in 15-20 minutes.
